## DURABILITY

### WHEN QUALITY MEETS QUALITY

Sustainability is a key element in the development of the Tropical Hangout product line. We only use high-quality materials with a long service life guarantee, to create the most durable solution. If the Hangout is properly maintained, the frame will last a lifetime!

All the materials we use have been carefully selected. The strong frame is a combination of stainless steel and aluminum. The unique Tropical Hangout sleeves are made of high-quality outdoor fabric, that was originally applied in luxury yacht construction.

Only the best is good enough, therefore all our products have been tested for safety and quality. That is why we thoroughly tested the Hangout durability up to the full weight of 2100 kg!

The Hangout is best placed on grass or sand. They are stable and do not require ground anchoring which makes them very easy to install!

**POWERFUL FACT**

has been tested at 2100kg

## TROPICAL HANGOUT | AIR CHAIR

### SOMETHING DIFFERENT

Because of a sitting position instead of the classic lying position, the Air Chair offers an ideal alternative. In the more active upright position, the Air Chair presents a more professional approach and can be used for (business) meetings, and brainstorming sessions, great for getting to know each other better in a relaxed way!

The Air Chair has a fantastic and comfortable seat position with the same relaxing vibe that makes our line so unique. The Tropical Hangout Air Chair is perfectly suited for office spaces, airport terminals, and leisure parks.

### CREATING PRODUCTS THAT MAKE YOU SMILE!

The Tropical Hangouts were invented, designed, and produced in Amsterdam. Tropical Hangout was originally formed by four friends, all with a strong passion to produce from our root philosophy: 'Creating products that make you smile'.

When we started, first we spent some time in the Caribbean (SXM). At our favorite beach bar, we hung a wonderful hammock between two palm trees. Because of the atmosphere and the comfort, this hammock was very popular. Unfortunately, one hammock is far beyond social, but due to a lack of hanging points, which is often the case, we have implemented this solution into our Tropical Hangout product line. We also want to bring over the relaxing feel of the Caribbean.

### POWERFUL FACT

Tropical Hangouts can be sent internationally on one pallet

## TROPICAL HANGOUT | HOT SPOT

### A RELAXED WAY TO SPEND YOUR DAY!

The Tropical Hangout | Hotspot is unique. Relaxing together with the entire family in the Hotspot is a fantastic experience. Because of the plateau with a diameter of around 3 meters, there is room for everyone.

It can be compared to a large lounge sofa or cabana. A relaxing way to spend your day.

### POWERFUL FACT

The lounge platform has a cross-section around 3 metres
